

Visiting St Martin's Church Blackheath

When visiting St Martin's you are entering a public building so we are asking people to continue to help everyone stay safe by noting the following:

Hand Sanitizing – please hand sanitize on entry.

Face Coverings – the Government has relaxed the need to wear face coverings and guidance rests with each organisation. Though it is an individual choice some may wish to continue to do so for their own benefit and the benefit of others and/or because of the role they are undertaking in church. We would particularly encourage the use of face coverings in confined areas of the building, or when it is crowded.

Social Distancing - please continue to respect social distancing and for the benefit of yourself and others consider sitting well apart from those not in your group. Those who wish even more space may wish to sit to the rear of the church.

THE CHURCH IS OPEN EACH DAY

8am to 4pm – in the winter

**8am to 6pm in the summer –
changing when the clocks change**

*We hope you enjoy the peace and
beauty of this special building*

Patricia Allen
